Facilities Planning Committee
Conroe High School

- Built: 1963
- Size: 410,521 sf
- Grades: 9-12

Moorhead Stadium: 1963

Current Enrollment: 4,089
Grades 10-12 Enrollment: 3,008
Current Size: Approx.: 600,000 sf
Number of Buildings: 6

Original Bldg: 55 Years Old
Rotunda Bldg: 49 Years Old
Annex Bldg: 46 Years Old
Athletics Add: 21 Years Old
1st Science Add: 12 Years Old
Front Entry Add: 10 Years Old

Projects & Updates

Construction: 4 years
Grades: 10-12
Approximate Size: 600,000 sf
Number of Buildings: 1

- New Main Entry, Admin, Commons, & Kitchen - approx. 59,000sf; New Classroom connection to Band Hall - approx. 20,000sf; New entry drive, parking, drop-off
- Demo Commons & Kitchen; demo “Tower”; demo CTE South bldg.; construct New Classroom Addition - approx. 50,000sf
- Demo Annex Bldg (excluding Culinary); construct New PE/Athletics addition - approximately 95,000sf
- Partial demo of PE/Athletics; Renovate remaining area to serve as New CTE, including Greenhouse - approx. 85,000sf; expand/renovate existing stage
- Demolish CTE North Building, Rotunda, and Greenhouse; construct new Parking area

Relocate existing practice and JV football fields, with bleachers, lights, etc.
Expand Detention Pond; New Campus Drive and Bus Parking
Projects & Updates

ORHS Overhaul: Upgrades to mechanical, electrical, and plumbing systems throughout the school with some cosmetic updates as a byproduct. The auditorium and gyms will be evaluated for potential improvements as funds allow. This item also includes window systems for the campus.

CTE Conversion: Addition of robotics, automotive technology and engineering design programs
New Schools to Accommodate Growth

- (1 elementary in Conroe Feeder)
- (1 elementary in Caney Creek Feeder; site acquisition in process)
- (1 junior high in Caney Creek Feeder to allow for use of Moorhead JH as intermediate; site acquired)
- (1 elementary in Grand Oaks Feeder)
Additions for Capacity and Programmatic Growth

- Classroom addition to CHS9
- Increase capacity and upgrade fine arts and athletics facilities to accommodate growth at Caney Creek HS
- Robotics lab and science classrooms addition to The Woodlands HS
- 10 classroom addition to TW College Park HS
- Increase classroom and cafeteria capacity at York JH to 2,000 students
Facilities Planning Committee
Safety & Security

Evolution of Safety & Security

2004
projects revolved around sprinklers, alarms, driveways, and adding video cameras at secondary schools

2008
focus was on creating secure entrances, upgrading alarms, and adding video cameras at all campuses, adding some driveways, etc

2015
3 phases of Bond Program totaling $13,904,732.28; focus became secure vestibules (layered approach), controlled access, upgraded and expanded camera system, etc.

A Layered Approach

Deter: Make it harder to gain access
Detect: To more quickly identify the threat
Delay: Slow down the action to better align with the response time by law enforcement
Respond: Have law enforcement nearby or on site and to train staff to adequately respond
Facilities Planning Committee
