

Flex 20 Name Suggestion

Rationale for Suggestion

Ahmaud Elementary	Ahmaud was an African American man who died at the hands of racist individuals. We should honor him in our community, making a statement about how Conroe ISD pledges NO to racism. We should raise our children with integrity and awareness of the issues facing their nation.
Akokisa	The Akokisa were a native tribe that lived in the Montgomery county area. Every school in the district seems to be named after someone famous - someone who managed to make a mark on history. There were entire communities of people that called this area home - that were exterminated by disease and bullets long before they had a moment to make a mark. We should honor them. Their name should at the very least - be on a sign where knowledge is imparted.
Alan A. Moore	Alan served on our school board for many years as well as the Army Reserves...he has been a dentist in Conroe for 40 years... he is deserving of a school named after him.
Ann Richards Elementary	Ann Richards was a strong leader in Texas government and has provided, for many years, a role model for girls in Texas to look up to and learn from.
Annette Gordon-Reed Annette Gordon Reed	She is an inspiration to hard work in academia. Local hero and a true inspiration, especially for females and non-whites who make up the majority of society but who historically have been denied a voice in forming the very society they must live in. This new age of students must see that the Patriarchy is over - we have enough schools named for white males - and Equal Partnership with equal opportunities for all is within their grasp. Ms. Reed's overcoming limitations as a non-white female to become a respected author more than qualifies her
Annette Gordon Reed	Professor Annette Gordon Reed is a Texas-born (nearby Livingston, TX) historian, well-regarded by her accolades, winner of the Pulitzer Prize for History (2008), who shares a novel outlook on the history of slavery in America. Her historic perspective in the intricate and divisive topic of bondage in our Nation, and the close proximity of her birthplace, make her my top candidate for naming a local school after her. Thanks for your consideration.
Annette Gordon Reed	She is a Pulitzer Prize winning author and current professor at Harvard from Conroe. On a personal note, she was one of my law professors in law school and is an amazing educator.
Annette Gordon Reed Elementary School	Pulitzer Prize-winning Historian, Annette Gordon Reed's incredible life story is one of overcoming odds and underscoring the life-changing and life-affirming power of education. A powerful message to our community, and an area where a story of overcoming odds can have profound impact on our Childrens' view of the function of their new school in their lives. Here's a news story with more information: https://www.yourconroenews.com/neighborhood/moco/news/article/Conroe-mural-honors-Pulitzer-prize-
Annette Gordon-Reed	Friends of mine have told me wonderful things about Ms. Gordon-Reed. She is a true local hero who endured discrimination and local segregated schools to get the best early education possible—and she has ultimately risen to the highest levels of academia in the world. Annette is now a Pulitzer Prize-winning author and esteemed legal history chair at Harvard Law School.
Annette Gordon-Reed	It has long been a tradition to name Conroe schools after heroes both local and those on the national stage. Dr. Annette Gordon-Reed is a most illustrious alumni of Conroe schools as a Pulitzer Prize winner for her book The Hemmings of Monticello which broke new ground in the telling of Jefferson from the point of view of his slaves. She is a Harvard alumni and a professor of Law all of which go to make her a fabulous role model for all our children, but especially our students of color.
Annette Gordon-Reed	Gordon-Reed's academic and professional achievements would inspire all CISD students to aim high, to see her achievements as goals that they too can reach for. She is a standout graduate of CISD and would reflect highly on this district. Thank you...
Annette Gordon-Reed	This young woman is the perfect role model for our CISD students. She has served her community well, educated herself with determination and is now head of a Harvard Department, where she continues to be a role model for her community and for higher education.
Annette Gordon-Reed	Annette Gordon-Reed, first African American graduate of Conroe High School, wrote the Hemingses of Montecello, a nonfiction book which won a Pulitzer Prize and a National Book Award.
Barack Obama Barbara Cargill	Many positive angles to resonate with many Founder of Wonders of The Woodlands science camp
Becky Page	Chairman of the Texas State Board of Education I believe naming this elementary school after Becky Page would be a great idea, not only for her commitment to CISD but especially for her dedication for every student that walked her halls, there have been so many. She wasn't just an educator to students but also staff and even parents. She made me who I am and I wouldn't be half of the person I am without her. Her commitment to the growth of her entire school, from students to teachers to parents, is why she deserves this title.
Bell Elementary School	Named after Ted Bell— he has served as student center and the greater CISD area photographer for many years now. Ted Bell has been dedicated to the district for many years and never fails to show up for the kids at all of their events! His wife Lavette has worked in the district for years now as well.
Booker T. Washington Elementary School	"Born into slavery and later freed, Washington knew first hand the difference an education can make in a person's life. He became a dominant and influential figure among politicians and the general public and did much to pave the way for later civil rights." A quote from https://www.teachhub.com/top-12-pioneers-education where I got my information and the idea for the name. All the credit goes to teach hub.com

Claudia "Lady Bird" Johnson	I was trying to think of a woman to name the new school after. There are no schools named after a woman on the east side. I also wanted to think about the community. There are many outdoorsy people in the east side of the county who treasure nature. Since she was responsible for the beautification of Texas highways by planting bluebonnets and other flowers, the community would know her name and relate. Johnson Elementary! Dan W. Green	Dan Green has been a positive influence on this community through teaching and coaching for over 40 years. Dan currently has a non-profit organization that works on training youth athletes to get to their next level of competition while developing post collegiate athletes for Olympic and IAAF competitions. I have witnessed the positive influence Dan Green has on youth athletes through my 3 children as they learn about sportsmanship and life through his program.
Danny K. Signorelli	Danny Signorelli is a longtime resident of Montgomery County and the Conroe Area. Danny started Signorelli Homes, First America Homes, and The Signorelli Company in Montgomery County over 25 years and now employees over 120 employees in the community. Danny and Angie Signorelli and The Signorelli Company have been great citizens in the community over the years developing communities and giving back to those who have given so much to him, his company, and employees. Please consider. Thanks
David Wiggins	He founded the Wigginsville area with his brothers, long before Mr. Granger. He deserves just as much honor and recognition as the Grangers.
Deborah.Kaschik@theyounglearners.com	Janene Fowler always have 200% to the district and the kids she taught! I worked with her as a volunteer through Efta and her dedication was amazing! A school named in her memory would be an amazing tribute to her service to CISD!
Don E. Granger Don E. Granger Elementary	He was a retired educator for Conroe ISD and the school will be located in Grangerland. Mr. Granger was an educator in Conroe ISD. He was a staple to the Grangeland community (and the Caney Creek Feeder Zone).
Don E. Granger Elementary School	https://www.yourconroenews.com/neighborhood/moco/news/article/Don-E-Granger-remembered-for-service-to-14425796.php I moved here in 1976 and Don E. Granger was a fixture in this community until his passing recently. This would mean a great deal to a great many people in this area.
Don Granger	Don Granger comited his life to give to the community up until the day he passed. i think it would be a great honor to name it after him
Don Granger Elementary or Don E. Granger Elementary	Because Mr. Granger was someone who was loved in this community. His father founded Grangerland and Don Granger spent most of his life here, going to school in Conroe. And teaching here. Having Grangerland Hardware. He loved this community with his whole heart. And he loved the children here at the schools. The school should be named in his honor.
Don Granger Elementary School	Mr. Granger loved and served the Grangerland area for decades. He supported the schools and students as well as other community outreach activities, including building a community center. He was always so generous like that. He also kept his hardware store as a museum, of sorts, to celebrate the successes of the district that he was so proud to serve. We lost Mr. Granger this past year, and this would be a great tribute to him and all the people he touched in this community for so long.
Don Granger Pines Elem	In honor of Mr Granger that recently passed away that had owned that property and to fit the name of the neighborhood it is located in (ex Birnham Woods Elems is in Birnham Woods neighborhood in Oak Ridge feeder)
Donald J Trump Donald J Trump Donald J Trump Elementary Donald Trump Institution Of Learning	He has been by far the best president we have had in the last 50 years. He has been by far the best president we have had in the last 50 years. Because he is the greatest president of all time! President Trump Is An Inspiration To All Races , Genders And Religions !

Dowling-Knox Elementary	Dowling-Knox Elementary would honor both a fallen Houston firefighter, Captain Michael Dowling and a fallen Houston police officer, Jason Knox.
Dr Joann bakeN	She was my principal when I was a senior at Hauke high school. She is a very loving, compassionate, and caring person. She loved us all and treated us as if we were her own. She is very deserving of this. I can't think of anyone more deserving she has made positive impact on many students lives through the years!!!!
Dr JoAnn Beken	She serviced CISD for many years. She was a Diagnostician, teacher, principal of several schools and helped to create the system known as Hauke High School for CISD.
Dr Kathleen M. Sharples	Her dedication, loyalty & service to CISD is exemplary. Her influence as HR Director will be reflected throughout the district for many years to come.
Dr Kathleen Sharples	43 years of loyal service. All with CISD. That's longer than some school board members have been alive. Selflessly serving and loving the children of Conroe. I know of none more deserving than Dr Kathleen Sharples.
Dr. Annette Gordon-Reed	She is a true local hero who endured discrimination and local segregated schools to get the best early education possible—and she has ultimately risen to the highest levels of academia in the world. Annette is now a Pulitzer Prize-winning author and esteemed legal history chair at Harvard Law School.

Annette is now a Pulitzer Prize-winning author and esteemed legal history chair at Harvard Law School.
Dr. Annette Gordon-Reed	Dr. Annette Gordon-Reed grew up in the Conroe school district. Although she was the lone black student in her classes for many years, she flourished. Dr. Reed is a Pulitzer Prize winning author and is currently Harvard Law School's Charles Warren Professor of American Legal History and a professor of history in the Faculty of Arts and Sciences. What a shining example for our children!
Dr. Annette Gordon-Reed Elementary	Dr. Gordon-Reed is one of the most distinguished scholars to graduate from Conroe ISD. To win a Pulitzer, the National Book award, a MacArthur genius grant, and a Guggenheim Fellowship places her in a pantheon of only a few in the United States. Her life illustrates the power of education and the power of family. She shows that women can accomplish at the level of national recognition. She could inspire any student, and perhaps specifically minority students and girls, to reach high.
Dr. Christine Butler Elementary	She has served and lived in our community for over a decade.
Dr. Curtis Null	As a former student of CISD and as parent now, I believe Dr. Null did a great job as principal when I attended Conroe High School and now he is doing an impeccable job as superintendent.
Dr. Don Stockton Elementary	He was a great Asst. Principal at the Woodlands High School when my son was there. We had a problem with a teacher and Dr. Stockton settled it with calm conversation and respect. As a teacher I saw Dr. Stockton with students, reading and talking with them, and he always made students feel comfortable around him. CISD was able to build new schools every year through his leadership. At the teacher convocation, the beginning of each year, his sense of humor was always well received.
Dr. Elvira Di Pieri Elementary School	"Doc" was the AP Chemistry teacher at The Woodlands High School for over 17 years. She inspired and motivated so many students to not only perform well in her class, but go on to college and pursue a chemistry related career. When she found out she had stage four cancer, her students rallied together, with the help of fellow teacher Terri Whiteman, to form multiple fundraisers, including Sound by the Shore, a community wide benefit concert for Doc and her daughter. Doc passed away in 2017.
Dr. Jo Ann beken	She is the most caring educator I have ever had. She cared for us all throughout our education and even afterwards. She is worthy, in my opinion of being the icon of a new CISD school.
Dr. Jo Ann Beken	Dr. Beken served Conroe ISD for many years. She was one of the first female high school principals and dedicated many years to W. L. Hauke High School. I was a teacher under her leadership. She stills continues to serve the Conroe ISD community in her retirement. I know that she puts the children of Conroe ISD at the forefront. I wholeheartedly believe she is worthy of this distinction.
Dr. Jo Ann Beken	Words cannot explain how much she helped me through school
Dr. Jo Ann Beken	Mrs. Beken was my principal for 3 years, ending in 2006. She was tough but she cared so hard. At one point I had to go to court for an assault against me on a school bus but I had no ride (I was homeless in highschool) and she not only made sure I made it there, she stayed to support me the entire time. There are few educators like her left and she deserves some recognition. Dr. Jo Ann Beken made my life tolerable when few others tried and I owe her a lot. The least I could do is submit her name.
Dr. Jo Ann Beken	I am a former student of Dr. Beken when she was the principal at Hauke Academic Alternative High School. During my time at Hauke, Dr. Beken was for us students. She did everything in her power for us- including structure, a safe environment to learn, clear expectations, and gave many of us students the chance to graduate with a High School degree when our probability of obtaining one was low otherwise.
Dr. Jo Ann Beken	Always children first
Dr. Jo Ann Beken	Dr. Beken concluded her professional career as principal of Hauke Alternative Academic High School. As an educator in Conroe Independent School District, she consistently championed for the students under her watch. She knew when to respond to student needs with compassion, and when to display a tough love that can be sometimes hard to accomplish. And just as she did with her students, as principal, she managed her teachers with an effective combination of compassion and tough love.
Dr. Jo Ann Beken	Dr. Beken has done so much for the district. I know her from Hauke where she established a structured environment surrounded by love for all of her students and staff. Dr. Beken maintains a professional stance while delicately balancing a family feel to her relationships. Jo Ann Beken has my full support in having her name on the new building in our great district.
Dr. JoAnn Beken	I spent four years with Dr. Beken at Hauke High School. Her mentor ship didn't stop there. Unfortunately I didn't graduate with my class. I gave up, Dr. Beken never stopped checking on me, reaching out. In 2018 she called me and told me to get ready I was graduating. I walked the stage in August with one other classmate from my class. My son is a CISD special needs kid and she has been my voice for him SEVERAL times. She DESERVES THIS!!!!!! Thank you Dr. Beken!!!!!!

Dr. JoAnn Beken	<p>Dr. JoAnn Beken was my principal for approximately 23 years, both as a sub and full time employee.</p> <p>Dr. Beken's main job was working for the students. The child was always her main concern. She was both fair in her consequences, and in encouragement.</p> <p>As a teacher, I was never worried, as I knew, she always "had my back". If needed, she would fight for her teachers, an important asset to anyone working in this field.</p> <p>Dr. JoAnn Beken, the most positive role model ever, deserves this honor.</p>
Dr. Kathleen A. Sharples	<p>Kathy has been the biggest cheerleader for CISD for 43 years. There isn't a school in the district she cannot name a friend at. Kathy worked tirelessly to recruit the very best educators for the district and kept a smile on her face.</p> <p>Fun Fact: Ken asked Kathy to marry him at Runyan Elementary. (They were that excited about being a part of CISD)</p>
Dr. Kathleen Sharples	<p>Mrs. Sharples made the recommendation for me to be able to join iTeachTexas. She took a chance and believed in me when my GPA was not what was needed. I taught Special Ed for 7 years, nominated as Teacher of the Year for 3 years and was Beginner Teacher Of the year my first year. I don't write that to pat my own back but to say I could not be in a profession that I'm as passionate about without this incredible woman who gave me her time and encouragement. I'm not the only one, but one of many.</p>
Dr. Kathleen Sharples	<p>Dr. Kathleen Sharples, demonstrates servant leadership with 43 years of service in CISD. She has served as a teacher, assistant principal, principal and HR Director. She has been instrumental in recruiting and retaining thousands of great educators for children in this community.</p>
Dr. Kathleen Sharples	<p>Dr. Sharples has spent her career in the service to CISD. She has held any positions of responsibility in the district. She has recently retired, and I feel she deserves this honor.</p>
Dr. Kathleen Sharples	<p>Dr. Sharples has given her heart and soul to this district for the past 43 years. Her heart and dedication has helped lead the district to what it is today. It is not often you get someone who is willing to put their all into one district over their lifetime. She has made an impact throughout the town and district that will not be forgotten.</p>
Dr. Kathleen Sharples	<p>She has just retired from the District with 43 years of service; all in CISD. She has served as a teacher, assistant principal, principal and HR Director. She has been instrumental in recruiting and retaining thousands of great educators for children in this community.</p>

Dr. Kathleen Sharples	<p>Nobody deserves it more!</p> <p>My hero, my Mom. 43years of dedication to CISD</p>
Dr. Kathy Sharples	<p>Nobody deserves it more!</p> <p>Dr Sharples served CISD for 43 years! During her service to the district she was a teacher, assistant principal, principal, and Human Resources Director. When I was named principal of a new school, she assisted me in hiring the best staff for the school. I always respected her ability to make sure only the very best personnel worked for CISD. My grandchildren now attend school in the district and I always feel an assurance that only the best teachers teach them!</p>
Dr. Shirley Jackson	<p>In 2020, CISD MUST embrace leaders and influential people of color. In a district increasing in diversity, there are too few schools named to reflect these communities. Dr. Jackson was the former head of the US Nuclear Regulatory Commission, first female African American to receive a doctorate from MIT. Dr. Jackson's outstanding leadership in education, science, and public policy demonstrates the capability of women to be leaders in the field of science & technology.</p>
Dr. Beken	<p>I nominate Dr. BeKen.</p> <p>She was the principal for Hauke alternative high school in Conroe Texas. She worked with us. Changed our life's. She helped us grow. She is the reason I and many others finished school.</p> <p>She and all of the teacher at the school gave us that 2nd chance. Thought us we were better. Showed us how to thrive and grow.</p> <p>She is so discerning of this. She is amazing and needs to be recognized for the amazing hard work she has done for all of us. A school of Misunderstood students</p>

Dr. Kathy Sharples	<p>Dr. Sharples has served Conroe ISD as an educator, a principal, and as PR administrator. She has helped set up new schools, facilitated moving teachers when needed keeping teachers individual interests in mind. She was one of those who recruited bilingual teachers and helped them getting accredited to teach in our district. Few people have been so involved in so many areas and always with a smile on her face. Her influence was felt in every county that our district is being served.</p>
Dry Creek Elementary	<p>Dry creek is a creek near that is very close to the school location, also it is fitting to its feeder zone school name Caney Creek</p>
Elon Musk Elementary	<p>Elon Musk elementary shows innovation and hope to grow in knowledge and solve problems, and always look up never down</p>
Fowler	<p>she was my science teacher in 8th grade and she instilled in me a love of science. She was wonderful and vibrant and intelligent and kind and passionate. Her husband was my pre calculus teacher and he was also an inspiration. They deserve this.</p>

Fowler Elementary	Mrs. Fowler was the most influential teacher I had as a child, her love for science sparked my interest at a young age. We lost one of the best teachers a student could ever ask for and she should be honored in a memorable way! I have recently graduated from OU with a BS in Mechanical Engineering and it would have not been possible without her love for science and ability to share that with other people.
Fowler Elementary	Most energetic Science teacher I have ever had the pleasure to know. She fought a hard fight and didn't miss an event, even in the midst of her chemotherapy. She is the true definition of dedication to teaching. Janene Fowler will never be forgotten and this would be an amazing way to make that happen and honor her and her family.
Fowler Elementary	Janene Fowler, McCullough science teacher, lost her battle to cancer last year . Janene shared everything she knew with a loving heart. I remember her family because her girls went through the elementary school I currently teach at. This would be an amazing tribute to a CISD teacher-someone who did Science on Saturday, CISD Science fairs and WOW science camp. A teacher who truly went above and beyond and who was taken way too soon.
Fowler Elementary	J. Fowler was a brilliant educator whose love for her students and desire to help all learn was evident. My daughter was taught and inspired by her. Midway through her school year with Mrs. Fowler, I received a text from my daughter that made me so happy because I knew she was being taught by an amazing person that was making a lifelong impression. The text said : "Mom, I am sorry, but you are no longer my favorite teacher. Mrs. Fowler is."
Fowler Elementary (Mrs. Fowler)	Mrs. Fowler was my sons science teacher at McCullough. She was a dedicated teacher who fought until the very end of her cancer battle. Even during her chemo treatments she continued to provide guidance, strength and leadership to her students. She departed this earth to soon but made an impression on each student she taught.
Fowler Flex 20	Janine Fowler was a force to be reckoned with as a science teacher at McCullough, Science Fair Coordinator for many years, and shining example of a good humanitarian. Her enthusiasm for her career and especially her kids was infectious in the best way possible. She loved her career, selflessly helping the community with unpaid hours of commitment to kids through science events. She was a bright and shining example of what it means to have found your calling in life. Let her spirit live on.

it would be to have a school named after Brandon and an awesome way to keep Brandon's memory alive!!! Thank you!	He is a local fallen hero. What an honor it would be to have a school named after Brandon and an awesome way to keep Brandon's memory alive!!! Thank you!
Garner Elementary	Born and raised in the area. He is a Sargent of the U.S. Army and a correctional officer at a state prison facility. Has spent his whole life working hard and showing his pride and love for our country. I personally would like to view that Roy Harris not be the name of the new school. He has so much recognition already and due to personal reasons I know this could hurt many emotionally because of some unethical behaviors of Mr. Harris.
Gary C Mills Elementary	Because it's a cool name !!
George Bush Elementary	He is a Texan and was a great president
Granger Elementary	After Don Granger he's the most well known and respected around the area!
Granger Pines Elementary	Naming the school Granger Pines Elementary honors the Granger family and further defines the history of the area.
Granger Pines Elementary	Name it for the location.
Granger Pines Elementary	The new elementary school is going to be located in the Granger Pines subdivision.
Granger Pines Elementary	Located in the Granger Pines master-planned community, it would be a great touch to have the Granger Pines elementary school that young residents will attend.
Granger Pines Elementary	Much like many of the neighboring schools, naming this school after its geographical location, inside the Granger Pines community, clearly identifies where the school is and also benefit from the community's strong brand identity. There is also no controversy around naming it after a terrain. Plus, Granger Pines Elementary is similar to the middle school, and is equally easy to identify, spell and should resonate well within the greater community.
Granger Pines Flex School	Named after the neighborhood that it will be in.
Granger Pines Flex School	Named after the neighborhood that it will be in.
Granger Pines K-4 Campus	Granger Pines is an easy way for kids to both know the name of their neighborhood and school all in one. I think it's a great tool for them to learn at an early age the location of where they're at, plus it'll be helpful if one ever becomes lost.
Harriet Tubman	She is an icon for African American and have been so for decades. Also we have eliminated Booker T Washington and I would be nice to pay tribute to the African American community with such an iconic figure.
Hathaway	I think that this would be a great name☺
Heartwood Elementary School	My husband and I are both graduates of Caney Creek High School and now currently teach there. We grew up in this community, went to CISD schools, and we want to develop this community for future generations. My suggestion is based on the forests that surround our community and that we love: Heartwood: The older, nonliving central wood of a tree, darker and harder than the younger sapwood. The main support of the tree. Our schools are the central support of many children in our area.
Herbert Kix Lamp	Mr. Lamp graduated from Conroe High where he served as class president. He taught in Conroe for 22 years, then served as principal for 11 years. While serving as principal of Anderson Elementary he always went the extra mile to show respect for and provide a safe and friendly learning environment his students. He also served Conroe In the Kiwanans Club, where he greeted children yearly at the parade site. He was a wonderful example of what our world and the children of Conroe deserve.
Heroes Elementry School	this elementary school would be dedicated to all the Heroes that make this world go around during all this corona virus amd any other hard times.

Howard Hughes If your child/children were blessed to have Mrs. Fowler in the past as a science teacher, I would ask you to honor her memory and what she of gave of herself to our district by nominating the name Janene Pulley Fowler Elementary School	Local philanthropist. Mrs. Fowler taught my daughter in junior high and she was very involved in the science bowl. Her exuberance for science and teaching were quite evident.
J Fowler Jack Fields Elementary	She was both my children's teacher and really exemplified what it means to be an excellent teacher. Former Representative for Texas's 8th congressional district. He has also earned a Bachelor of Arts degrees from Baylor University and has served the congressional district well making Conroe and The Woodlands some of the best places to live in Texas.
James Franklin McIngvale	Mattress Mack is such a giving person in our community and has done so much for the needy and those in hard times.
James Franklin McIngvale (Mack)	Named after mattress Mack. After all that he's done after the flooding disasters. He's a good citizen and humble person.
James Franklin McIngvale aka "Mattress Mack"	Community Spirit - Inspiring how he uses his business to provide philanthropy to the local community. Much respect for him after he opened up his stores for people to shelter inside during the hurricane and now he's serving on the Strike Force for Covid-19 for Texas. Great example of a regular citizen demonstrating inspiring civic responsibility and duty.
Janae Pulley Fowler Jane Fowler Jane Pully Fowler Elementary School	She was such a sweet lady and wonderful teacher. Mrs. Fowler was an awesome teacher. She really cared about her students. Jane Fowler was the most amazing teacher I ever had the chance to work with, and learn from. I was only an office aid for her but I will never forget the time I got to be with her, and the influence she had on me. She gave her heart and soul to CISD and I believe we should honor her with this.
Jane Y McCallum Elementary	A prominent Texan and suffragette she represents the grit and determination we are so proud of in Texas

Janeane Fowler	Janeane was the constant educator, to Brownie troops, co-workers, and her students. Sharing her love of science, nature, and astronomy with everyone around her. She was an award winning teacher, but it was her passion to share these things she loved that truly made her the best kind of teacher. She was the person that you turned to when you needed a radiant smile or a laugh that could be heard across the building. She was my first call to answer any trivia question. Janeane Fowler was CISD.
Janene Fowler	Mrs. Fowler was a dedicated and admirable teacher. She loved her students tremendously, cared so much both in and outside the classroom. Mrs. Fowler chose to share her wisdom, love and deep kindness to everyone. I could not think of anyone more deserving of this recognition.
Janene Pulley Fowler Janene Pulley Fowler Janene Elizabeth Pulley Fowler	Janene, before passing, was a science teacher for many years. She inspired all who knew her. Janene, before passing, was a science teacher for many years. She inspired all who knew her. She was the science teacher at McCullough who sadly left us in 2018. In the limited time I knew her, she was a bundle of energy and joy, an inspiring teacher that always finding ways to motivate her students to be better themselves everyday. She also created an environment in which science was not intimidating and there for encouraging both the girls and the boys to see its value not only in the academic setting.
Janene Elizabeth Pulley Fowler	She loved what she did which included teaching science to her students, inspiring them to excel and all that with such energy and joy. Hope the CISD board will consider her name for the name of the FLEX20 school. Thank you. Best regards, Bala
Janene Fowler	I have never met an educator so dedicated to her field and to the students as Janene Fowler. She taught my children science at McCullough. Her enthusiasm, her energy, and her desire for all level of students to learn was tremendous in my opinion. Teaching science can be tricky, especially with labs, but she allowed the students to trust the process even when the outcomes were less than stellar. She was an excellent educator with a joyful and infectious spirit whose legacy should be celebrated.
Janene Fowler	She was a wonderful science teacher at McCullough with a heart of gold. She went above and beyond for her students. Even when she found out she had cancer she continued to work because she wanted to be there for the kids.
Janene Fowler	Mrs. Fowler was an inspiration for students and teachers. She loved teaching and her students. She gave her heart to everything she did and she took the time to know students, parents, science fair judges and event volunteers. She was dedicated, smart, caring, protective, kind, professional, fun and she could make a kid or adult laugh to motivate them or cheer them up. If you are looking for a positive role model for our students and community, then Janene Fowler is that role model!
Janene Fowler	She was an amazing teacher who cared so much about her students. She instilled a love for science within her students and was one of the best science teachers I have ever had. I am now a student at Rice university applying to medical school. Mrs. Flower also coordinated science fair and extensively showed us how the scientific method worked. She is missed dearly. Rip.
Janene Fowler	Mrs. Fowler was an exceptional role model and science teacher for my children. Her passion for teaching and science was a gift to a generation of students. She truly embraced the idea of putting children first. While we often name schools after academic administrators and board members, I think naming a school after a teacher on the frontline would be an inspiration to teachers in our district to know their daily service is appreciated.
Janene Fowler Janene Fowler	Great teacher in CISD. She gave so much to students and it would be a great to honor her. Mrs. Fowler was the best. She loved and cared for her students and even those kiddos in the community. I knew her through church, and she was wonderful! She had such a kind heart!!!
Janene Fowler	Mrs. Fowler was one of the most influential teachers I had throughout grade school. She made me fall in love with science and mad every kid smile in her class. She unfortunately lost her battle with cancer, but she left a legacy which should never be forgotten!

Janene Fowler Mrs Fowler was an outstanding teacher loved by many and respected by many. Her passion for teaching showed. She taught my oldest who is now 26yrs old. My oldest received her degree in Forensic Sciences and her love for sciences began in junior high because of the awesome science teachers. Ms Fowler also taught at the WOW Science program which all three my daughters attended and she was a huge impact on them. Again displaying her love for the sciences which influenced my girls!

Janene Fowler She was a beloved science teacher. Her love of teaching students not only science but citizenship too was admirable. She always had a positive attitude even while combating cancer. Truly a great role model for all the students who had the chance to be in her class.

Janene Fowler Dedicated, caring, tireless even when she had so much to deal with. Never complained. Taught from the heart with stern determination for students to learn. Always there early and often late in afternoon. Loved her job. Her smile was infectious and I loved her. I miss her very much and she would love the honor but probably think someone else deserved it more, but honestly there is no one better deserving.

Janene Fowler Janene was a fabulous human being loved by everyone who knew her. She was an outstanding science teacher and did much to motivate her students and create a desire in them to extend their knowledge in all STEM courses. Her sense of humor was one of her best qualities along with living life with a positive and spiritual outlook.

Janene Fowler Janene dedicated her life to teaching students all the possibilities that a solid science education can provide. She was loved by students, parents and esteemed by her fellow teachers. Naming one of our beautiful CISD schools after her would be a beautiful tribute to a wonderful person.

Janene Fowler Janene was science dept chair at McCullough for close to 20 years. Her joy of life, energy, and pursuit of excellence were boundless. She conveyed a passion for the Earth to every class she taught, showing how science is "cool." She loved her students and colleagues, and that love was easily reciprocated. It was impossible to be around Janene and not be encouraged, educated, or entertained. Her passing is still keenly felt, but we are inspired that she kept her joy and faith to the very end.

Janene Fowler Before succumbing to cancer, Ms. Fowler had a huge impact on anyone and everyone she interacted with. Anyone who worked with her could feel her love and energy coming down the hall! She had a deep love for her students and for teaching. She also worked to make the science fair a huge success for the district. She would be a great namesake!

Janene Fowler Great Inspirational teacher

Janene Fowler In memory of a dedicated teacher to so, SO many of our kids. What better way to honor her memory.

Janene Fowler Mrs. Fowler was a dedicated science instructor and made a huge impact on her students. I went to McCullough Jr. High when she taught science, and did not have her as my teacher directly. However, I spent a day in her classroom due to a break for standardized testing, and instead of sitting around and wasting a day, she took my whole room outside for a lesson in Biology. She gave everything she had to her profession out of a deep care for others. Her memory would be greatly honored if chosen.

Janene Fowler Mrs Fowler was a joyous teacher and influenced many lives even after her class. She encouraged us to stay curious and love science. This foundation, set at McCullough, led me to study Geography and make earth science my career. Her impact on my educational trajectory was profound, and I truly believe that a school honoring her passion for education and service to the students of Conroe ISD is well deserved. Please consider naming this school after a local role model, rather than a national one.

Janene Fowler Mrs. Fowler was my pre AP science teacher when I was a student at McCullough Jr High. She was truly a distinct teacher and was so passionate about her job. I learned so much from her, and her positive personality made it so enjoyable. She really pushed her students to do the best work they could. I know this may sound insignificant, but she had a voice that carried down the hall and every time I passed, it made me smile. She since has passed away sadly. A leader and role model and so much more!
Janene was science dept chair at McCullough for close to 20 years. Her joy of life, energy, and pursuit of excellence were boundless. She conveyed a passion for the Earth to every class she taught, showing how science is "cool." She loved her students and colleagues, and that love was easily reciprocated. It was impossible to be around Janene and not be encouraged, educated, or entertained. Her passing is still keenly felt, but we are inspired that she kept her joy and faith to the very end.

Janene Fowler
Janene was an excellent educator who devoted her life to teaching CISD students the love of Science. She spearheaded Science Fairs as well as the WOW Science camps for years. Having had her older daughter, Kasey in my class, I was fortunate to observe firsthand how Janene lived what she taught.

Mrs. Fowler was instrumental in getting so many students excited about science in CISD. She was a great team leader for science fairs and staff development. She exemplified what teachers and education should be like while loving her students and colleagues. My son had Mrs. Fowler for Science at McC and she guided him to winning in the Science Fair. He won second place in the entire state of Texas! McCullough has so many students who do very well in science fair; Mrs. Fowler was the reason for that. The paperwork for science fair is tedious and detailed; and she had to approve so many. She was a wonderful teacher and a great person. ;

This would be a good continuation of that trend.

He faithfully served as the state representative for District 16, until he suffered a stroke in office & had to retire. As a partner of Hope & Causey, he was a respected business leader in Conroe. Susan Berry	I would like to suggest Susan Berry for nomination to have a school named after. Mrs. Berry taught at Oak Ridge Elementary for many years before moving to Houser Elementary. She is a well known teacher to 2,if not 3, generations in the Oak Ridge feeder zone. Many times she taught the children or grandchildren of former students. She was a teacher who always saw the heart of the child and loved them like her own. Her students whatever their age still remember Mrs. Berry and The Berry Patch.
Susan Meyer Patterson Elementry	Distinguished CISD band director retiring after 30+ yrs as an educator. Mrs. MP epitomizes what an excellent educator is. Her compassion and drive established the foundation for the award winning McCullough Jr High Bands while inspiring a passion for music and band that her former students carried with them to the world renowned TWHS band program. Naming the school after Mrs. MP not only honors her, but also honors the CISD dedication to the Arts and the many students it has benefited.
Susan Robin Elementary	Susan Robin taught at Creighton Elementary and then Grangerland Intermediate for many years. She was a dedicated special education teacher, a pillar of her community and church. Grangerland currently honors her memory with an award each year to one 5th and one 6th grade student. The greatest honor for a teacher would be to have a school named after them and I couldn't thing of a better way to remember her legacy and pass it on in Conroe than by naming a school after her.
The Abby Brewer School	Abby Brewer is am amazing parent volunteer and came to our school when help was needed. Constantly going above and beyond with all teachers at our school and always with a spirit of giving. With very little parent volunteers at our school, Abby Brewer made up for that lack and was there when asked.
The Cool Elementry School	Because we have some very cool teachers in CISD. This school would be dedicated to them.
Uher Elementary	Mr. Uher has been an amazing and influential member of the CISD
Victor Molitor	I spent 14 years as a student at Conroe ISD. And through out those years it felt like a prison. I did my time, and for that I feel like a school should be named after me. Molitor Aviators!

Victor Uher	He is the modern day Mr. ROGERS, and is known as "The Singing Principal". After 29 years he's tired from the school system but has certainly left his mark with all the students, parents and teachers he has worked with. He is what real teaching stands for.
Victor Uher	Victor has been a vital part of CISD for many years. Both my children had him as a principal and he hired me as a teacher after graduating college. He is a shining example of what it means to be a part of CISD.
Victor Uher	Mr. Uher has worked for CISD for many years. I have known him as the principal for Wilkinson Elementary. That man is an absolute angel. He is so kind to the children. Extremely helpful to the parents. He has served with tremendous pride. We are heartbroken to see him retire. But I believe he deserves this. Please consider him for this honor.
Victor Uher	Mr. Uher has served our district in a variety of roles but his impact is magnified with his role as a principal. The amount of teachers and administrators he taught while in elementary school and mentored as an administrator has and will impact our district for generations.
Victor Uher	He is the only principal I have worked under for 14 years. He's been a great principal and friend to me.

Victor Uher	Victor has served 29 years in education and was one of the most honest leaders. When I came to Wilkinson, it was a breath of fresh air. He cares for both his teachers and students. I know his retirement is bittersweet for him as it is for his employees.
Victor Uher	At Wilkinson Elementary, we are very sad to see Mr. Uher retire. He was an amazing principal, and served many many years as an educator in Conroe ISD. He was the best principal I have ever worked under. He deserves the world!

Victor Uher Elementary	Victor was my principal for 11 years at Bonnie Wilkinson Elementary. He served with such professionalism and grace all those years. He taught me so much in these last few years, and he knows how to make someone a better teacher. He was also a friend to the staff and the community he served.
Victor Uher Elementary	Victor Uher has served CISD for the past 29 years, & is retiring this year. I first met Victor when he was just beginning his career as a second grade teacher at Armstrong Elementary - and I was a second grade student! Many years later he hired me to teach at Wilkinson. Victor has modeled leadership and integrity, knowing & utilizing his staff's strengths to best enrich students' lives. He truly values his people, and you can see the positive ripple effect he has created throughout his career.

Virgina Tamborello Elementary	She was the best AP this district has ever seen. She loved all kids with a full heart. She bled CISD as long as she physically could. I would love to see a school with her name on it.
Virginia Tamborello	I worked under her for six years at CHS. In fact, she hired me to work for this district. I can say with both sincerity and simplicity that she led the school and the district with integrity.

Wiggins Elementary	Name recognition is a great honor for any family. Wiggins ancestors cleared land, farmed and raised their families here while developing the settlement of Wigginsville in the 1900's. We have supported this community with respect, dignity and hard work. Wiggins children have attended every level of education from elementary to high school here. Wiggins parents have made education a priority for their children and have produced educators, business professionals and community leaders. Thank You.
Wiggins Elementary	The name Wiggins has a long history in the geographical location near where this new school is located. I believe it is only proper for it to be named after a family with deep ties to the community.
Wiggins Elementary	The Wiggins family have been long standing members of the surrounding community for generations. With namesakes such as Wigginsville and Ben Wiggins road in the area, I feel Wiggins Elementary would serve as a sensible tie to the community's history.
Wiggins Elementary	To honor all of the Wiggins family who settled the area and helped to build the community when there was nothing but tall pines The Wiggins brothers settled here after the war and have raised 6-7 generations in the area and all over Texas .
Wiggins Elementary	(1) honor community history by recognizing a family who helped establish the area, including Wigginsville, a town near the school's proposed site, (2) represent the service of teachers - Mary Wiggins attended Huntsville Teacher College (SHSU) and returned to the area to teach in the early 1900s, (3) provide a female role model for student.
Wiggins Elementary	Mary Wiggins as the namesake to honor heritage, celebrate education, and set an example for future generations. Mary Wiggins as the namesake: (1) honors community history by recognizing a family who helped establish the area, including Wigginsville, a town near the school's proposed site, (2) represent the service of teachers - Mary attended Huntsville Teacher College (SHSU) and returned to the area to teach in the early 1900s, (3) provide a female role model for student.
Wiggins Elementary	The Wiggins families settled on both sides of Caney Creek and were farmers, ranchers and just about anything else that raised families in a challenging era. I was blessed to grow up along with so many others in this rural community. We played and we learned at a small country school, but most of all we thrived We now have a 5th generation 2nd grader living on some family land. It would Be an honor for his children to attend Wiggins Elementary when that time comes.
Wiggins Elementary	The Wiggins Family did a lot for this community. Multiple members of family work for the district. The family still owns land and works hard for our community everyday!
Wiggins Elementary	Wiggins were the first settlers in the Wigginsville / Grangerland area. Mary Wiggig was a teacher in CISD for many years. M.O. Wiggig helped many students with their educational needs. M.O. and his wife Ruby took in children who had no place to go.

Wiggins Elementary	The Wiggins family has a strong influence in the area. When they came to the area, they quickly made their mark on the community. If you were to say the name "Wiggins", you would be hard pressed to find anyone who would not know the family. Mary Carmen Wiggins was a teacher in the area. Because of their generosity throughout the community, I cannot think of any other name that would be more fitting or deserving than, Wiggins Elementary.
Wiggins Elementary	The Wiggins family has been an important part of this community for over 100 years. My great great grandfather and his brothers traveled across this county and settled in this area. My great grandfather was part of the famous oil boom. My grandmother, Mary Wiggins was a teacher. My dad Othaneil Wiggins owned his own business (Wiggins Fencing) and was an influential part of the Wigginsville community. Their influence have encouraged so many and they would be so honor to be remembered this way.
Wiggins Elementary	As a CCHS graduate and resident of the community, I recommend Wiggins Elementary to honor our heritage, celebrate education, and set an example for future generations. Selecting Mary Wiggins as the namesake would: (1) honor community history by recognizing a family who helped establish the area, including Wigginsville, a town near the school's proposed site, (2) represent the service of teachers as Mary taught in the area in the early 1900s, (3) provide a strong female role model for student.
