Which grade levels will be impacted?

- Only 5th and 6th grades will be affected.

What about current students finishing the last year at their campus?

- We have traditionally allowed families to remain at a particular school to complete the final year; however, space and program availability will determine whether this is an option.
- When allowed to transfer, the parent must provide transportation.
- If a transfer is granted for a student to complete his/her final year at his/her current campus, sibling transfers are generally allowed for that year also.

Thank you.
