and more

We want you to know[®]

The eye-opening

See your way to savings with the Aetna Vision discount program. You'll get discounts on eyeglasses, contact lenses, eye exams, LASIK surgery and more.

You'll even save on specialty vision care items not typically covered by insurance — like snazzy eyeglass chains, designer frames, sunglasses and colored contacts.

It's what you need to keep you, and your vision, sharp!

There are no limits to how often you can use the discount. You get on-the-spot savings every time you buy a product or service from one of our many participating locations.

Choose from thousands of locations

It's easy to find a provider, with thousands of independent locations and national chains.* Our network includes Pearle Vision® Centers, Sears Optical®, Target Optical®, JCPenney Optical® and LensCrafters®.

You can find one by visiting DocFind®, our online provider directory. Go to www.aetna.com and follow the standard search prompts to "vision locations". Or, call **1-800-793-8616** for information on provider locations.

Great rates on eye exams

A routine eye exam does the eyes — and the body — good. It's the #1 way to detect eye problems like glaucoma or astigmatism. It can help spot symptoms of diabetes, hypertension and other medical issues early, before they become bigger problems.¹

Most locations have doctors of optometry on the premises, or nearby. So, even if you don't have eye coverage through your medical benefits, you can get a great rate on eye exams. See the price list in this brochure for details.

If you already have eye exam coverage, use this program as a supplement. Check your plan documents first, since your costs could be lower if you follow the plan requirements.
