

Chapter 61 Fence and Film Update 4-18-24

Last year when we received our first grant from the state for fence upgrades, we utilized the funds to prioritize those campuses that have portables onsite as those funds were ear marked for upgrading those instructional areas located outside of a campus.

This year we are working on the second grant from the state which includes funds ear marked for fence and window film upgrades. For phase two of the fence portion of the grant, we are working on the remaining Elementary and Intermediate schools that did not have portables.

For the film instillation portion of the grant, we are working in two phases. Phase one brings each campus to the level of compliance outlined in Chapter 61 by August 31, 2024. Beginning in September we will begin a second phase that will take each Elementary and Intermediate school to a level that exceeds the minimum standards outlined in Chapter 61. This work will occur though a good portion of the 24-25 school year because the contractor will be working around instruction.
