

Conversation Starters: Week of 3/22

Questions are to be answered and discussed by both the mentor and the mentee.

- Would you rather never again be able to celebrate the winter holidays or never again be able to celebrate your birthday?
- Would you rather be very clumsy or be very forgetful?
- Would you rather be in a deep lake, 5 miles from shore in a rowboat with a slight, but steady leak or be in a hot-air balloon one mile high, with a slight, but steady leak?
- Would you rather have an alarm clock that gives you a small electric shock to wake you up or one that pours a bucket of ice-cold water on you to wake you up?
- Would you rather be a lot stronger than you are now or run a lot faster than you do now?
- Would you rather wear a motorcycle helmet to bed every night or always sleep with shoes and jeans on?
- Would you rather be extremely lucky or be extremely smart...but not both luck and smart?
