Fall 2019 Trainings

Number Sense Progression (Grades K-6)

Do you have math students struggling mathematically or with gaps in their math? Come learn about the pivotal foundational pieces of the Number Sense Progression. Walk away with how to assess for these progression pieces as well as activities to help close the gaps.

Tuesday, September 3, 2019 4:30 - 6:30 p.m.,

Addition & Subtraction Progression (Grades K-6)

Do you have students who struggle to add and subtract? Are you looking for strategies to close gaps in learning? Join us as we explore the progression of addition and subtraction from counting in Kindergarten all the way up to adding and subtracting numbers with decimals! Learn about the pivotal foundational pieces of addition and subtraction and walk away with activities for each stage of the progression to meet the needs of all students in your classroom.

Kindergarten Instructional Number (Grade K)

A child's development in math varies based on many factors. Learn how to use the early number sense progression to turn your classroom into a differentiated environment. Walk away with the tools to quickly assess students, activities to grow their instructional number, and ways to collect evidence during daily number sense experiences.

September 23 & 25, 2019 4:30 - 6:30 p.m.,
