# The Code Structure

## BASIC SYSTEM CODE COMPOSITION

### ***Fund Code***

A mandatory **3** digit code is to be used for all financial transactions to identify the fund group and specific fund. The first digit refers to the fund group, and the second and third digit specifies the fund.

Example:

A Special Revenue Fund could be coded **211**. The **2** indicates the Special Revenue Fund, the **11** specifies ESEA Title I Part A – Improving Basic Programs.

### ***Fiscal Year Code***

A mandatory single digit code that identifies the fiscal year of the transaction or the project year of inception of a grant project.

Examples:

For the 2019-2020 fiscal year of the school district, an **0** would denote the fiscal year.

### ***Function Code***

A mandatory **2** digit code applied to expenditures/expenses that identifies the purpose of the transaction. The first digit identifies the major class and the second digit refers to the specific function within the area.

Example:

The function “Health Services” is coded **33**. The first **3** specifies Support Services – Student (Pupil) and the second **3** is Health Services.

### ***Optional Codes 1 and 2 (Sub-objects)***

A **2** digit code for optional use to provide special accountability at the local level.

## ***Organization Code***

A mandatory **3** digit code identifying the organization, i.e., High School, Middle School, Elementary School, Superintendent's office, etc. An organization code does not necessarily correspond with a physical location. The activity, not the location, defines the organization. Campuses are examples of organization codes and are specified for each school district in the Texas School Directory.

Example:

Expenditures for a high school might be classified as **001**. This is a campus organization code that is defined in the Texas School Directory for that high school.

## ***Program Intent Code***

A **2** digit code used to designate the intent of a program provided to students. These codes are used to account for the cost of instruction and other services that are directed toward a particular need of a specific set of students. The intent (the student group toward which the instructional or other service is directed) determines the program intent code, not the demographic makeup of the students served.

Example:

An entire class of physics is taught at the basic level. Program intent code **11** would designate Basic Educational Services.

## ***Optional Code 3***

A single code that is used at the local option.

## ***Optional Codes 4 and 5***

An optional **2** digit code that may be used by the district to further describe the transaction.

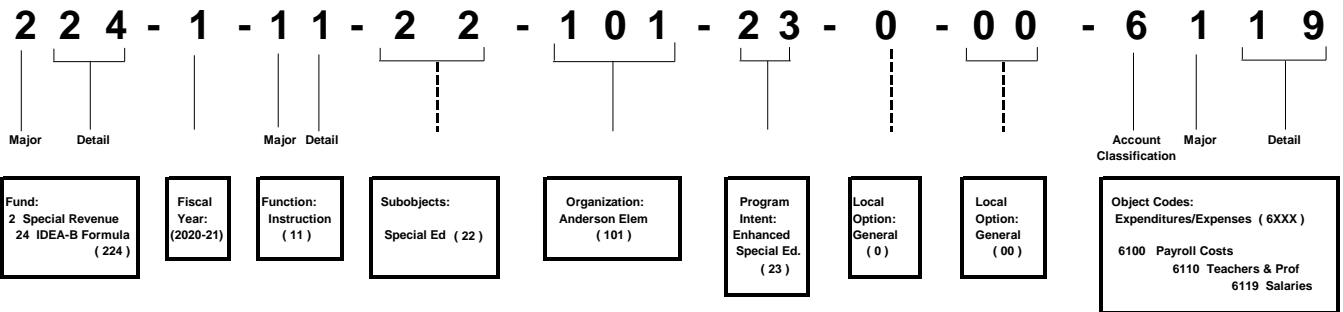

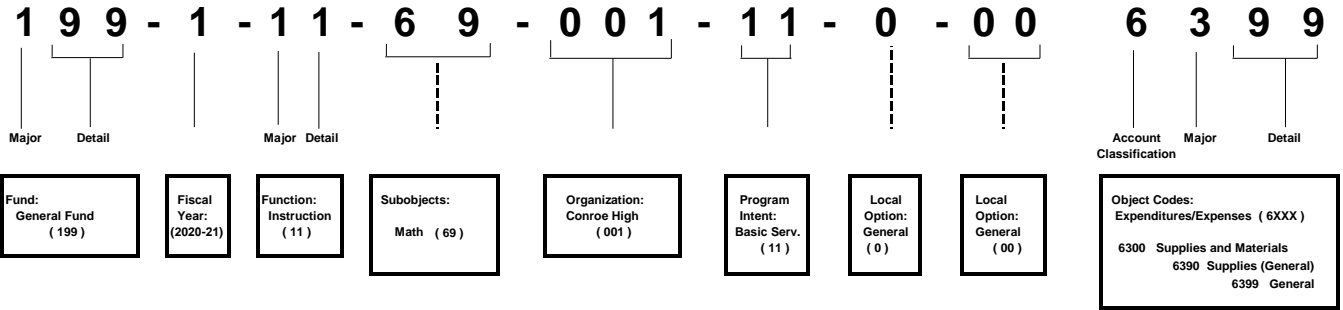

## **Object Code**

A mandatory **4** digit code identifying the nature and object of an account, a transaction or a source. The first of the four digits identifies the type of account or transaction, the second digit identifies the major area, and the third and fourth digits provide further sub-classifications.

Example:

Money received for current year taxes is classified in account **5711**. The **5** denotes revenue, the **7** shows Local and Intermediate Sources, the **1** denotes local real and personal property taxes revenue and the final **1** specifies current year levy.

## **FIXED ASSETS**

---

### **IX. DISTRICT FIXED ASSET GUIDELINES**

**Each spring, a fixed asset inventory report will be sent to each campus and department. This list should be reviewed and signed off by the principal, department head, or appropriate administrator. The report will be returned to the Finance Office to make any corrections necessary.**

#### **A. Fixed Asset**

1. An item which has a unit cost of **\$5,000** or more.
2. Will last two years or more.
3. Retains its original shape and appearance with use.
4. Is non-expendable (i.e., if the article is damaged or some of its parts are lost or worn out, it is usually more feasible to repair it than replace it with a new unit).
5. Does not lose its identity through incorporation into a different or more complex unit or substance.
6. If several parts are purchased to assemble into one item or unit, the total cost determines if the item is a fixed asset (i.e., two standards, weighted bases and a net make up ONE volleyball unit and if the total cost is \$5,000, the unit is a fixed asset. If the net is replaced the following year, it would be a supply item).

#### **B. Transfers**

1. ICRT Transfer of Equipment (CISD-328 of 6-96) must be completed and signed with proper signatures by the originating campus for any fixed asset being moved.
2. The form is then sent to the receiving campus for the proper signature.
3. The original form with both signatures should then be sent to the Finance Office for proper recording of the changes.

#### **C. Auction**

1. Items which are no longer working or cannot be used by another campus or department can be sent to auction (auctions are normally held in April and October). ICRT Equipment to be Auctioned (CISD-327 of 6-96) form must be completed and signed.
2. The campus or department must call the Custodial Department to have the item picked up.
3. Any computer or computer equipment must be verified non-repairable by Technology before it is sent to the auction.
4. The letter from the Technology Repair Department suggesting the item needs to be sent to auction must be attached to the ICRT Auction form.

---

## FIXED ASSETS

---

### D. Donations

1. Donations of items to the District come in two forms: new items and used items. Items donated to the school or purchased from Activity Funds will be added to the District's fixed asset records and must be accounted for by the school principal and properly tagged as CISD property. All fixed assets are considered CISD property, but will remain on the campus under the control of the Principal and club sponsor.
2. Whether new or used, each item that is donated to our District must have the approval of the campus principal or administrative department head receiving the items. A person in the department normally responsible for purchases of this type of fixed asset (i.e., Technology, Maintenance, Custodial, etc.) must be contacted to see if the item meets the following criteria:
  - a) Safe and acceptable for use by students and employees
  - b) Meets the requirements of the instructional program (if applicable)
  - c) True, justifiable need for the item
  - d) Item is in good working order and is compatible with related equipment
  - e) Within the guidelines of the district technology plan (if applicable)
  - f) Meets the District criteria for a fixed asset as defined in the current Finance Manual of CISD
  - g) Cost \$5,000 or more
3. If the item is **new** at the time of donation and meets all of the criteria listed above, then:
  - a) An ICRT Donation form (CISD-326 of 6-96) must be completed and signed by the required personnel along with an invoice or receipt detailing the cost of the items. This form, along with the invoice, should be sent to the Finance Office so it can be added to the District's fixed assets.
  - b) The District will accept responsibility for maintaining and repairing the item.
  - c) Installation of permanent equipment, such as playground equipment, shelving, etc., should be coordinated with the Maintenance Department.
  - d) You should write a letter to the organization or individual thanking them for their donation. A copy of this letter should be forwarded to the Finance Office to be filed with the fixed asset records.
1. If the item is **used** at the time of donation and meets all of the criteria listed above, then:
  - a) These items will not be added to the District's fixed asset records.
  - b) The District will not replace the items.
  - c) The campus or department may still accept the donated items.

---

## FIXED ASSETS

---

- d) The District will not accept responsibility for maintaining or repairing the item.
- e) You should be willing, if requested, to provide a letter to the organization or individual making the donation.

### E. Repair and Replacement

1. The District will repair, as necessary, items that were purchased with District funds which are fixed assets or which **cost \$500** or more. Please keep the following guidelines in mind when considering an item for repair or replacement.

- a) **Repair**

- 1) All items submitted for repair will be reviewed on an individual basis. The District typically provides funds for the repair of instructional items or items critical to the operation of a campus which cost \$500 or more; however, budget constraints will be considered.
- 2) If the item requiring repair is a fixed asset, it must be properly tagged and on the District's fixed asset inventory before any repairs can be made.
  - a) Items purchased directly from an activity fund will not be repaired by the District as they will not be tagged.
  - b) Any donated items requiring repair must meet the District guidelines for donations.
  - c) Fixed assets requiring repair will be evaluated to determine if it is more feasible to replace the item than to continue to repair it.
- 3) Repair and/or replacement of items costing \$500 or more or fixed assets will be limited to problems that have occurred during the normal operation of the equipment. Equipment that has been damaged or vandalized is the responsibility of the individual campus.

- b) **Replacement**

- 1) Items that are considered to be fixed assets and items costing \$500 or more purchased with District funds will be considered for replacement using District funds. Individual campuses and departments will be responsible for replacing items which do not fall within these guidelines.
- 2) If an item is to be replaced, only the original amount OR the replacement cost for a similar item, *whichever is less*, will be provided by the District. Should the campus or department wish to "upgrade" the item being replaced, the campus or department will be responsible for providing the additional funds to purchase the "upgrade."

---

## FIXED ASSETS

---

c) **Stolen**

- 1) A **police report** must be filed with the CISD Police Department on any stolen item costing \$500 or more or a fixed asset item before the District will replace it. Items stolen that are not a fixed asset or cost less than \$500 will be the responsibility of the campus or department.
- 2) An ICRT Lost or Stolen Equipment (CISD-325 of 6-96) form must be completed and sent to the Finance Office.
- 3) Only the original amount OR the replacement cost for a similar item, *whichever is less*, will be provided by the District. Should the campus wish to “upgrade” the item being replaced, the campus or department will be responsible for providing the additional funds to purchase the “upgrade.”

Due to the unsecured nature of laptop computers, Chrome Books, and iPads, the district will no longer cover the replacement cost of stolen laptops. The replacement of these computers lies with the applicable department/campus.

## CREDIT CARD ACCEPTANCE

---

### XII. Credit Card Acceptance Policy

Credit card swipe machines are available at most secondary campus locations and some administrative departments. Items that are eligible for payment using this process will be determined by the campus/location. These swipe machines are intended for use when a purchase cannot be made using the credit card option on the webstore. The following is the Credit Card Acceptance Policy that has been established by the District and must be followed.

- A. Cardholder **and** the credit card must be present at the time the card is swiped.
- B. The cardholder must have a form of ID and it **MUST** match the name on the card.
- C. The District cannot accept a credit card number over the phone, mail, e-mail, etc.
- D. The credit card swipe machine is processed through the TRACKS software.
  1. Select the payment type on the TRACKS screen and swipe the card through the card reader.
  2. The last 4 digits of the card should be displayed on the screen. Verify that these numbers match the last 4 digits on the credit card that was just swiped.
  3. If there is something wrong with the magnetic strip on the card and the swipe machine will not read it, the card may be entered using the pin pad. To use this option the credit card number, expiration date, and verification code must be entered. The verification code is the 3 digits on the back of Mastercard/Visa or Discover or the 4 digits on the front of an American Express card.
- E. The cardholder should sign the receipt and **PRINT** their name below the signature. The receipt will only print out the students name that the payment was made to. It is important to know the name of the person who actually made the payment.
- F. If there is a signature on the back of the credit card, verify that the signatures match.
- G. The card present option (credit card swipe) option is available as an added convenience. If a parent/cardholder cannot be present at the time of payment, the webstore should be available for them to use.
- H. Credit card information should **NEVER** be written down, hard copied, or retained for any reason.
- I. Any approved refunds will be processed in check format. Refunds will not be credited back to the credit card.
