

Student Support Services

The Department of Student Support Services will provide professional learning opportunities to address Multi-Tiered Systems of Support (MTSS). MTSS is a proactive approach, driven by strong school leadership, which encompasses support for the whole child and includes academics, behavior, and social emotional learning. MTSS leverages the principles of Positive Behavior Interventions & Supports (PBIS) and Response to Intervention (RtI) to provide a systematic, equitable approach for meeting students' academic and behavior needs. In 2023-2024, professional learning opportunities will be provided to campus leaders to support problem-solving teams on their campus. Professional learning will also focus on academic and behavioral Tier I Best Practices, as well as more intensive interventions at Tier II and Tier III. CISD will continue the Schoolwide PBIS process through Foundations and CHAMPS. Selected teachers will have the opportunity to grow as teacher leaders in the area of Classroom Management through our STOIC Standouts training. Training will also continue at the district-wide level through our PBIS: Classroom & Behavior Management staff development and will be differentiated for elementary, secondary and Fine Arts and Physical Education teachers. Additional training will also be provided for teachers who are seeking deeper knowledge in classroom management. Through collaboration with the Guidance and Counseling Department, CISD Character And Resiliency Educational Supports (CISD Cares) will be embedded in professional learning.

List of Staff Professional Learning Offered

- PBIS: Foundations
- PBIS: Effective Classroom And Behavior Management (CHAMPS)
- Leveled Literacy Intervention (LLI)
- Academic Interventions Institute
- Behavior Interventions
- Working With the Tough Kid
- STOIC Standouts
